

## Quality Chain

Products > Industrial Chains > Roller Chain > **Quality Chain**

**RexPro : The New High Performance Standard Chain**

The most versatile and reliable solution has arrived. New **RexPro** is the result of Rexnord's continuous research and development of high performance chains. Further improvement of the previous high quality chain, a combination of selected steels, optimized production methods and RexPro's lubrication have resulted in superior performance and characteristics, including:

- Superior corrosion protection
- Improved wear resistance
- Environmentally friendly
- Optimum performance

**RexPro** high performance chains fulfill many demands in a wide range of industries. **RexPro roller chains** are available in sizes 04 to 72 B-3 according to BS and ANSI.

- European Standard ISO 606/DIN8187
- American Standard ISO 606/DIN8188
- American Standard, Heavy Series
- American Standard, Heavy Series with higher fatigue strength
- Industry Standard
- Hollow Pin
- Side Bow
- Laschenkette
- Double Pitch
